CERTIFIED MAIL--RETURN RECEIPT REQUESTED

Long Electric Company
1310 S. Franklin Road
Indianapolis, IN 46239

Re: PCB Treatment, Inc. Superfund Site
Kansas City, Kansas and Kansas City, Missouri

Dear Reader:

This letter notifies you of potential liability, as defined by Section 107(a) of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. Section 9607(a), as amended (CERCLA), that you may incur or may have incurred with respect to the above-referenced site. This letter also notifies you of potential response activities at the site, which you may be asked to perform or finance at a later date.

BACKGROUND INFORMATION

The PCB Treatment, Inc. Superfund site (the "site") consists of two buildings and the surrounding areas which were operated by waste disposal companies during the 1980s. These companies received waste shipments of polychlorinated biphenyls (PCBs). PCBs are chemicals which were formerly used in electrical equipment to prevent overheating. The companies operated at two locations. One building is located in Kansas City, Missouri, and the other building is located in Kansas City, Kansas. The facilities obtained a permit pursuant to the Toxic Substances Control Act (TSCA) to process and dispose of waste PCBs; however, due to regulatory violations and releases of PCBs at the facilities, the permit was not renewed and the facilities ceased operations in 1986. Efforts to complete closure and clean-up of the facilities under TSCA proved unsuccessful due to financial and technical reasons, and the facilities were abandoned. Because of the extensive residual PCB contamination, the facilities were referred to the Superfund program to be addressed using CERCLA authorities.

Over 1,500 parties sent materials containing PCBs to the site. These materials included transformers, capacitors, PCB oil, regulators, debris and other miscellaneous equipment. Due to the large number of parties, the U.S. Environmental Protection Agency (EPA) anticipates that a number of parties may qualify for "*de minimis*" settlements. The EPA's projected timetable for offering these settlements, along with other information regarding liability, is discussed below.

NOTICE OF POTENTIAL LIABILITY

The EPA has documented the release or threatened release of hazardous substances, pollutants, or contaminants at the above-referenced site. The EPA has spent, or is considering spending, public funds on actions to investigate and control such releases or threatened releases at the site. Unless EPA reaches an agreement under which a potentially liable party or parties will properly perform or finance such actions, EPA may perform these actions pursuant to Section 104 of CERCLA.

Under Sections 106(a) and 107(a) of CERCLA, 42 U.S.C. Sections 9606(a) and 9607(a), potentially liable parties may be ordered to perform response actions deemed necessary by EPA to protect the public health, welfare or the environment, and may be liable for all costs incurred by the government in responding to any release or threatened release at the site. Such actions and costs may include, but are not limited to, expenditures for conducting an Engineering Evaluation/Cost Analysis (EE/CA), conducting a removal action, and other investigation, planning, response, oversight, and enforcement activities. In addition, potentially liable parties may be required to pay for damages for injury to, destruction of, or loss of natural resources, including the cost of assessing such damages.

The EPA has evaluated information in connection with the investigation of the site. Based on this information, EPA believes that you are a potentially responsible party (PRP) with respect to this site. Potentially responsible parties under CERCLA include current and former owners and operators of the site as well as persons who arranged for disposal or treatment of hazardous substances sent to the site, or persons who accepted hazardous substances for transport to the site. By this letter, EPA notifies you of your potential liability with regard to this matter for the costs associated with investigation and cleanup of this site.

In accordance with CERCLA and other authorities, EPA has already undertaken certain actions and incurred certain costs in response to conditions at the site. These response actions include preliminary investigation of the site by EPA, the performance of an EE/CA by a group of PRPs, EPA oversight costs associated with the EE/CA and the costs associated with identifying and locating PRPs, as well as information management associated with PRP information. The EPA may expend additional funds for response activities at the site under the authority of CERCLA and other laws.

SITE RESPONSE ACTIVITIES

The EPA has performed some investigation activities at the site. At present, a group of PRPs is performing an EE/CA under an Administrative Order on Consent with EPA. The purpose of the EE/CA is to evaluate and compare different cleanup alternatives. In addition to the EE/CA, EPA is planning to conduct the following activities at the site:

1. Removal activities at both the Kansas and Missouri facilities, which may include a range of possibilities from cleaning up the contamination inside the buildings and in the soil surrounding the buildings to demolition of the buildings. Demolition may be necessary if it is determined that the cleanup process would not adequately address the residual risks, or if removal of the contaminated areas within the buildings would render the buildings unstable or uninhabitable. After the EE/CA is completed, EPA will make a decision as to which cleanup alternative is preferred by EPA, and hold a formal public comment period so that all interested parties can provide input to EPA before a final decision is made.
2. Follow-through activities to monitor, operate, and maintain the completed removal action as required at the site after the removal action is complete.

REQUEST FOR INFORMATION

The EPA is working under the Superfund program to investigate and clean up contamination from hazardous substances, particularly polychlorinated biphenyls (PCBs), from the former PCB Treatment, Inc. facilities at 2100 Wyandotte Street, Kansas City, Missouri and 45 Ewing Street, Kansas City, Kansas (the "Sites"). Superfund is a federal program designed to clean up hazardous substances that may pose a threat to human health or the environment. (The full name of the Superfund program is the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended by the Superfund Amendments and Reauthorization Act of 1986, which together are referred to as CERCLA.) PCB Treatment, Inc. operated from 1982 until approximately 1987. During that time, the following names were used: PCB Treatment, Inc.; PCB, Inc. of Missouri; PCB, Inc. of Kansas; Environmental Resource Management, Inc.; and Envirosure (which according to business records acted as the sales and invoicing agent). PCB contamination has been detected in the buildings and soils at both Sites and EPA is investigating the nature and extent of this contamination.

As part of this investigation, the EPA is sending information request letters to the owners of the Sites, and to all persons who may have sent materials containing PCBs to the Sites. Business records obtained from High Voltage Maintenance in response to its information request letter indicates that your firm used High Voltage Maintenance to send materials to the facility(ies) for treatment and/or disposal. Pursuant to the authority of Section 104(e) of CERCLA, 42 U.S.C. § 9604(e), you are hereby requested to respond to the Information Request enclosed with this letter.

You may assert a business confidentiality claim covering part or all of the information you submit. The manner in which to assert such a claim is set forth in 40 C.F.R. § 2.203(b). The information covered by such a claim will be released by EPA only to the extent and in accordance with the procedures set forth in 40 C.F.R. Part 2, Subpart B. If no such claim accompanies the information when it is received by EPA, it may be made available to the public without further notice to you. You should read these regulations carefully, together with the standards set forth in Section 104(e)(7) of CERCLA, 42 U.S.C. § 9604(e)(7), before asserting a business confidentiality claim, because certain categories of information are not entitled to confidential treatment.

Your response to this Information Request should be mailed within 30 days of receipt of this letter to:

Pauletta France-Isetts
Superfund Division
U.S. EPA, Region VII
726 Minnesota Avenue
Kansas City, Kansas 66101

The EPA strongly encourages you to give this matter your immediate attention and to respond to the Information Request within the time specified above. Please be advised that the EPA has the authority to compel compliance with this Information Request and to seek penalties in the event of non-compliance, as set forth in Section 104(e)(5) of CERCLA, 42 U.S.C. § 9604(e)(5).

The EPA plans to review all the information submitted by you and other persons who sent materials to the Sites for the purpose of achieving clean-up of the contamination and settlement of all the parties' potential liability for the contamination as expeditiously as possible.

This Information Request is not subject to the approval requirements of the Paperwork Reduction Act of 1980, 44 U.S.C. § 3501, et seq.

INFORMATION TO ASSIST RESPONSIBLE PARTIES

To assist PRPs in their understanding of the issues associated with this site, EPA is providing the following information as an enclosure to this letter:

1. A list of names and addresses of PRPs to whom this notification is being sent. This list represents EPA's preliminary findings on the identities of PRPs. Inclusion on, or exclusion from, the list does not constitute a final determination by EPA concerning the liability of any party for the release or threat of release of hazardous substances at the site.

2. A background information sheet about the site which explains the history of the site, the nature of the contamination at the site, why the site is being addressed under Superfund and a discussion of past and current response actions at the site.

PRP STEERING COMMITTEE

Some of the PRPs at the site have formed a Steering Committee. The Steering Committee has agreed to perform the EE/CA pursuant to an Administrative Order on Consent with EPA. The Steering Committee has indicated that it will enter into negotiations with EPA for the performance of the necessary removal actions at the site. If you would like to be included as a party to these negotiations, EPA recommends that you contact the Steering Committee representative listed below:

Russell Selman, Esq.
Katten, Muchin & Zavis
525 West Monroe Street, Suite 1600
Chicago, IL 60661-3693
(312) 902-5390

Alternatively, EPA encourages each PRP to select one person from its company or organization who will represent its interests.

Please note that many parties will qualify as *de minimis* parties pursuant to Section 122(g) of CERCLA, 42 U.S.C. § 9622(g). Under this provision of CERCLA and the policies EPA has developed under this provision, certain parties who contributed a relatively small portion of the waste to a site may resolve their liability for site costs by paying a cash settlement. The EPA anticipates offering such settlements to many of the parties at this site. Before offering such settlements, EPA would like to ensure that volumetric and cost information is accurate. Cost information will not be available until EPA selects a response action at the conclusion of the EE/CA process. Therefore, EPA will notify all parties at a later date of: 1) the allocation formula to be used to calculate the appropriate cost share; and 2) the names of the parties who will be offered *de minimis* settlements.

ADMINISTRATIVE RECORD

Pursuant to CERCLA Section 113(k), EPA must establish an administrative record that contains documents that form the basis of EPA's decision on the selection of a response action for a site. The administrative record files, which contain the documents related to the response action selected for this site, will be available to the public for inspection and comment. The primary location is generally the EPA Regional office. Because the site is located within the Kansas City area, this will be the only location at which the public may view the administrative record. The administrative record will be completed after conclusion of the EE/CA.

PRP RESPONSE AND EPA CONTACT

It is not necessary to contact EPA in response to this letter unless you have questions concerning the information contained in this letter. The EPA will send notification at a later date regarding parties eligible for *de minimis* settlements. In addition, an information update will be sent to all parties upon completion of the EE/CA. This update will also contain information regarding initiation of negotiations for performance of removal activities. Again, if you are interested in joining the Steering Committee, please contact Russell Selman at the address listed above.

If you have any questions, please call (913) 551-7018 and leave a message. Because of the large number of parties involved at this site, EPA has set up a voice message system at this number that is specifically dedicated to callers who need information on this site. Please leave a message at this number and an EPA employee will return your call as soon as possible.

Sincerely,

Michael J. Sanderson
Director, Superfund Division

**INFORMATION REQUEST
PCB TREATMENT INC. SITES**

INSTRUCTIONS

1. You are required to provide a separate narrative response to each and every question and subpart of a question set forth in this Information Request.
2. Precede each answer with the number of the question to which it corresponds.
3. If information or documents not known or not available to you on the date of submission of your response to this Information Request should become known or available to you at a later date, you must supplement your response to EPA. Moreover, should you find at any time after the submission of this response that any portion of the submitted information is false or misrepresents the truth, you must notify EPA of this fact as soon as possible and provide EPA with a corrected response.
4. For each document produced in response to this Information Request, identify the document and indicate on the document, or in some other reasonable manner, the number of the question to which it responds.
5. (A) The information requested herein must be provided even though you may believe that it includes confidential information or trade secrets. You may, if you desire, assert a confidentiality claim covering part or all of the information requested, pursuant to Section 104(e)(7)(E) and (F) of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), 42 U.S.C. § 9604(e)(7)(E) and (F) and 40 C.F.R. § 2.203(b), by segregating such materials for which a claim of confidentiality is being asserted from those materials for which no claim of confidentiality is being asserted, and attaching to those materials for which a claim of confidentiality is being asserted, at the time such materials are submitted, a cover sheet, stamped or typed legend, or other suitable form of notice employing language such as "trade secret," or "proprietary" or "company confidential." Information covered by such a claim will be disclosed by EPA only to the extent, and only by means of the procedures set forth in 40 C.F.R. Part 2.

(B) If no such claim accompanies the information when it is received by EPA, it may be made available to the public by EPA without further notice to you. You should read the above-cited statute and regulation carefully before asserting a business confidentiality claim, because certain categories of information are not properly the subject of such a claim. Information you submit in response to this Information Request may be disclosed by EPA to authorized representatives of the United States pursuant to 40 C.F.R. § 2.310(h), notwithstanding your assertion that all or part of it may be confidential business information. Please be advised that EPA intends to disclose your response to this Information Request to its contractor, Dynamac Corporation, whom EPA has retained to organize and analyze the information contained in the

responses to this Information Request. If you are submitting information asserted to be confidential business information, you may comment on this intended disclosure within 10 days of receiving this Information Request.

DEFINITIONS

The following definitions shall apply to the following words as they appear in this Enclosure:

1. The term "**you**" or "**Respondent**" shall mean the addressee of this Request, the addressee's employees, relatives, contractors, trustees, successors, assigns, and agents.
2. The term "**person**" as used herein includes, in the plural as well as the singular, any natural person, firm, unincorporated association, partnership, corporation, trust or other entity.
3. The terms "**Sites**" or "**facilities**" shall mean and include the property on or about 2100 Wyandotte Street, Kansas City, Missouri and/or 45 Ewing Street, Kansas City, Kansas.
4. The term "**hazardous substance**" shall have the same definition as that contained in Section 101(14) of CERCLA and includes any mixtures of such hazardous substances with any other substances, including petroleum products.
5. The terms "**pollutant**" and "**contaminant**" shall have the same definition as that contained in Section 101(33) of CERCLA, and includes any mixtures of such pollutants and contaminants with any other substances, including petroleum products.
6. The term "**RCRA**" shall mean the Resource Conservation and Recovery Act of 1976, as amended, 42 U.S.C. § 6901 et seq.
7. The term "**TSCA**" shall mean the Toxic Substance Control Act of 1976, 15 U.S.C. § 2601 et seq.
8. The term "**hazardous waste**" shall have the same definition as that contained in Section 1004(5) of RCRA.
9. The term "**solid waste**" shall have the same definition as that contained in Section 1004(27) of RCRA.
10. The term "**materials**" shall mean all substances that have been generated, treated, stored, disposed of or otherwise handled at, or transported to the Sites; including, but not limited to, all hazardous substances, pollutants and contaminants, hazardous wastes and solid wastes as defined above, and including but not limited to all debris, soils and liquids containing polychlorinated biphenyls or other hazardous materials.

11. The term "**items**" shall mean all objects, articles or materials that have been generated, treated, stored, disposed or otherwise handled at, or transported to the Sites; including but not limited to, all hazardous substances, pollutants and contaminants, hazardous wastes and solid wastes as defined above and including all electrical equipment, electrical equipment parts or other objects, articles or materials containing polychlorinated biphenyls or other hazardous materials.

12. The term "**identify**" means, with respect to a natural person, to set forth the person's name, present or last known business address and business telephone number, present or last known home address and home telephone number, and present or last known job title, position or business.

13. The term "**identify**" means, with respect to a corporation, partnership, business trust or other association or business entity (including a sole proprietorship), to set forth its full name, address, legal form (e.g. corporation, partnership, etc.), organization, if any, and a brief description of its business.

14. The term "**identify**" means, with respect to a document, to provide its customary business description, its date, its number if any (manifest, invoice or purchase order number), the identity of the author, addressor, addressee and/or recipient, and the substance or the subject matter.

15. The term "**release**" has the same definition as that contained in Section 101(22) of CERCLA, 42 U.S.C. § 9601(22), and includes any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the environment, including the abandonment or discharging of barrels, containers, and other closed receptacles containing any hazardous substance or pollutant or contaminant.

16. The terms "**document**" and "**documents**" shall include: (a) writings of any kind, formal or informal, whether or not wholly or partially in handwriting, including by way of illustration and not by way of limitation, any invoice, receipt, endorsement, check, bank draft, canceled check, deposit slip, withdrawal slip, order, correspondence, record book, minutes, memorandum of telephone and other conversations including meetings, agreements and the like, diary, calendar, desk pad, scrapbook, notebook, bulletin, circular, form, pamphlet, statement, journal, postcard, letter, telegram, telex, report, notice, message, analysis, comparison, graph, chart, interoffice or intraoffice communications, photostat or other copy of any documents; (b) microfilm or other film record, any photograph, sound recording on any type of device, any punch card, disc or disc pack, compact disc or laser disc; © any tape or other type of memory generally associated with computers and data processing (together with the identification of necessary software, programming instructions and other written material necessary to use such punch card, disc, disc pack, compact disc, laser disc, tape or other type of memory and together with printouts of such punch card, disc, disc pack, compact or laser disc, tape or other type of memory); and (d) (1) every copy of each document which is not an exact duplicate of a document which is produced, (2) every copy which has any writing, figure or notation, annotation or the like of it, (3) drafts, (4)

attachments to or enclosures with any document and (5) every document referred to in any other document.

17. The terms "**and**" and "**or**" shall be construed either disjunctively or conjunctively as necessary to bring within the scope of this Information Request any information which might otherwise be construed to be outside its scope.

18. The term "**arrangement**" means every separate contract or other agreement between two or more persons.

19. The terms "**transaction**" or "**transact**" mean any sale, transfer, giving, delivery, change in ownership, or change in possession.

20. Words in the masculine shall be construed in the feminine, and vice versa, and words in the singular shall be construed in the plural, and vice versa, where appropriate in the context of a particular question or questions.

21. All terms not defined herein shall have their ordinary meaning, unless such terms are defined in CERCLA, RCRA, TSCA or Title 40 of the Code of Federal Regulations.

QUESTIONS

1. Identify the person(s) answering these questions on behalf of Respondent.
2. Identify the person to whom future correspondence regarding this matter should be directed.
3. For each and every question contained herein, identify all persons consulted in the preparation of the answer.
4. Identify all names used by Respondent between 1982 and 1987.
5. Identify all persons, including Respondent's current and former employees, who have or may have knowledge, information or documents about the generation, use, purchase, treatment, storage, disposal or other handling of materials, equipment or items at, or transportation of materials, equipment or items to the Sites.
6. Identify all persons with whom Respondent, Respondent's employees or other persons made any arrangements for transportation of materials, equipment or items taken to the Sites. For each transaction, describe the type of arrangements made and submit all documentation relating to such arrangements.
7. Identify all persons with whom Respondent, Respondent's employees or other persons made any arrangements for the storage, treatment, or disposal of materials or items at the Sites. For each such transaction, describe the type of arrangement made and submit all documentation relating to such arrangement.
8. Provide copies of all documents including, but not limited to, invoices, contracts, receipts, manifests, certificates of disposal, shipping papers, service orders, and other documents, pertaining to Respondent's transportation of material, equipment or items, or arrangements for transportation of material, equipment or items, to PCB Treatment, Inc.:
 - a. Identify all documents pertaining to the transportation or arrangement for transportation of material, equipment or items to the Wyandotte Street location;
 - b. Identify all documents pertaining to the transportation or arrangement for transportation of material, equipment or items to the Ewing Street location.
9. Provide copies of all documents including, but not limited to, invoices, contracts, receipts, manifests, certificates of disposal, shipping papers, service orders, and other documents pertaining to Respondent's arrangements for the storage, treatment or disposal of material, equipment or items at PCB Treatment, Inc.:

- a. Identify all documents pertaining to the storage, treatment or disposal of material, equipment or items to the Wyandotte Street location;
 - b. Identify all documents pertaining to the storage, treatment or disposal of material, equipment or items to the Ewing Street location.
10. Provide any information or knowledge in the possession of Respondent, its affiliates, contractors or agents, relating to PCB Treatment, Inc. (such as correspondence you may have received from other persons relating to PCB Treatment, Inc.).
11. Provide any information or knowledge in the possession of Respondent relating to the handling or transportation of material, equipment or items between the Wyandotte Street and Ewing Street Sites by any person and the purpose for such movement of material, equipment or items between the Sites.
12. Identify all materials, equipment or items that were rejected from the Sites. For each material, equipment or item rejected from the Sites, state the reason for such rejection.
13. State whether Respondent, Respondent's employees, contractors and/or agents, or other persons ever shipped any material, equipment or item to the Sites? If so, provide the following information for each material, equipment or item that was or may have been sent to the Sites:
 - a. the type of material, equipment or item (i.e., transformer, capacitor, switch, etc.);
 - b. the size or rating of the material, equipment or item;
 - c. the name of the manufacturer and serial number;
 - d. the total weight of the material, equipment, or items;
 - e. the total weight of oil (in gallons, pounds, or kilograms) contained in the material, equipment or item, or the oil capacity of the material, equipment or item, and the method used to determine the amount or capacity;
 - f. the type of oil or other fluid that was present or may have been present in such material, equipment or item at the time it was sent to the Sites;
 - g. describe what steps were taken to determine whether the oil or fluid contained PCBs at the time of removal from service or of disposal;
 - h. any and all documentation, including but not limited to, analytical data which indicates the concentration of PCBs contained in the oil or fluid;

- I. the date on which the material, equipment or item left your facility;
 - j. the time period during which the material, equipment or item remained at the Sites;
 - k. the name, address and telephone number of the transporter;
 - l. if the material, equipment or item was owned by someone other than Respondent, identify the person owning such material, equipment or item; and
 - m. the name(s), address(es), telephone number(s), and date(s) of ownership of any and all prior owners, if any, of the material, equipment and item.
14. With respect to each shipment of oil to the Sites by tanker truck, in drums or any other method of shipment, provide:
- a. the total amount of oil in gallons, pounds or kilograms contained in each shipment and the method of shipment or type of container used;
 - b. the type of oil or fluid contained in each shipment;
 - c. describe the steps taken to determine whether the oil or fluid contained PCBs at the time of shipment; and
 - d. any and all documentation, including but not limited to, analytical data, that indicates the concentration of PCBs contained in the oil or fluid;
15. With respect to soil and debris shipped to the Sites, provide the following:
- a. a description of the constituents of the soil or debris shipped to the Sites;
 - b. the total amount of soil or debris shipped to the Sites in pounds, cubic yards, cubic feet, or other type of measurement. Describe the type of measurement;
 - c. describe the steps taken to determine whether the soil or debris contained PCBs at the time of shipment; and
 - d. any and all documentation, including but not limited to, analytical data, that indicates the concentration of PCBs contained in the soil or debris.
16. List the EPA RCRA Identification Numbers of Respondent, generators, brokers, and/or transporters, if any, and identify the corresponding units, facilities or vessels assigned these numbers.

17. If you have reason to believe that there may be other persons, whether or not employed by Respondent, who may be able to provide a more detailed or complete response to any question or subpart of a question or who may be able to provide additional information or responsive documents, identify each such person and the additional information or documents that each may have.

ATTN: Mr. Jim Black

SUBJECT: Engineering Report
Capacitor Disposal
Your P.O. WK-90-229 HVM W.O. IN-3921

Dear Mr. Black:

With reference to our engineering report dated September 12, 1986, enclosed please find copy of Uniform Hazardous Waste Manifest No. IN 006210 (and supporting documents) indicating transportation to and acceptance of one (1) drum (IS-1043 containing capacitors identified as IC-2710 through IC-2725) at PCB, Inc of Missouri on October 3, 1986. Supporting documents include Certificate of Destruction for these capacitors.

This completes all documentation for this project. Please let us know if you have any questions, or if we may provide additional information or service.

Sincerely,

(Mrs) Pat Hyer
Secretary/M. Lautenschlager

SUBJECT: Engineering Report
Capacitor Disposal
Your P.O. WK-90-229 HVM W.O. IN-3921

Dear Mr. Black:

Enclosed please find copy of receipt indicating acceptance of one (1) drum containing non-leaking capacitors at HVM storage facility, Indianapolis, IN.

Capacitors, identified as IC-2710 through IC-2725 were placed in drum identified as IS-1043. Disposal will be per EPA regulations.

At the time of final disposal, all documents will be on file in our Indianapolis office, and submitted to you, upon request.

Please let us know if you have any questions, or if we may provide additional information or service.

Yours very truly

Glen T. Lautenschlager, P.E.

PCB TREATMENT, INC. SITE KANSAS CITY, MO & KS BACKGROUND INFORMATION

PCB Treatment, Inc. (PCB, Inc.) was authorized to treat and dispose materials containing polychlorinated biphenyls (PCBs). PCB, Inc. began operations at 2100 Wyandotte Street, Kansas City, Missouri during 1982. A portion of the operations were moved to 45 Ewing Street, Kansas City, Kansas during September 1984. PCB, Inc. was an authorized PCB treatment and disposal facility from 1982 until 1986. During this time period, PCB, Inc. used several different aliases; which included: PCB, Inc. of Missouri; PCB, Inc. of Kansas; Environmental Resource Management, Inc. (ERMI); PCB, Inc.; and EnviroSure (which acted as a marketing arm for the company).

Customers of PCB, Inc. included the federal government, rural electric cooperatives, utility companies, cities, states, and large and small business. During the period of operation, PCB, Inc. received shipments of materials contaminated with PCBs (at varying degrees from slightly greater than 50 parts per million (ppm) to nearly 100% PCBs) from approximately 1500 entities. The total weight of materials sent to PCB, Inc. for treatment and disposal was in excess of 25 million pounds.

PCB, Inc. was issued a Notice of Violations (NOV) and assessed a monetary penalty after a 1985 inspection of the facility. (The inspection was performed pursuant to the requirements set forth in the Toxic Substances Control Act (TSCA).) The authorization to treat and dispose PCBs was initially issued for a time period of 3 years. The authorization was not renewed at the end of 1986 when it expired. The Environmental Protection Agency (EPA) required that PCB, Inc. pay a monetary penalty and clean the structures at 2100 Wyandotte and 45 Ewing Streets to provide a "clean" closure of the facility. Efforts were made to clean both structures; however, it was not possible for those performing the clean-up to attain residual PCB concentrations within the buildings or in the exterior soils which complied with TSCA Spill Policy requirements. The PCB, Inc. site was referred to Superfund during early 1995. Information request letters were sent to the building owners, pursuant to Section 104 of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA commonly known as Superfund) during May 1995. Approximately 1250 former PCB, Inc. customers were issued CERCLA information request letters during August 1995. Notice letters, which formally notify the recipient of Superfund liability in connection to the Site, are being sent to approximately 1200 former customers. Additional information request letters with a notice of liability will be sent during 1997 to recently identified PCB, Inc. customers. It is estimated that an additional 500 information request/notice letters will be sent during 1997. The information provided in the individual responses have been used, along with records obtained from PCB, Inc., to develop a database. The database information will be used to assess responsibility for costs associated with cleanup of the PCB, Inc. site.

A group of former PCB, Inc. customers (Group) met with EPA during 1995. The Group volunteered to perform characterization of the PCB, Inc. facility and to evaluate possible methods

of addressing the contamination found within the structures and in the exterior soils. The agreement was incorporated into an Administrative Order on Consent (AOC) signed by the EPA and the Group. Work required by the AOC is being planned and implemented by the Group with oversight by EPA. At the conclusion of the work required by the AOC, a decision will be made regarding the response action(s) to be taken to address the contamination at the Site.

Opportunity to settle with EPA, either as a *de minimis* or non-*de minimus* party, will be provided to all former PCB, Inc. customers at that time. All parties will be notified of the preferred response technology and the associated costs prior to the actual decision-making. All parties will be afforded the opportunity to comment on the proposed decision. Typically, interested parties are provided 30 days to comment on the proposed decision.
